Onboard Diagnostic Information System Service - AUDI

Importer: ---	Vehicle identification no.: ---		
Dealer: ---	Engine: ---		
Job: ---			

Welcome to the diagnostic program

Objective: Comprehensive diagnostic functionality. After you have connected the vehicle and started the diagnosis, the vehicle will be identified and the fault memories will be evaluated. Then the "Guided Fault Finding" and "Guided Functions" functions will be available for diagnosis. If you would like to work without a warranty order, you can also use self-diagnosis.

EOBDTool.co.uk

Connection status to the vehicle cannot be identified
 Ignition status cannot be identified
